Printed on 4/27/2019

### Babcock Access

**GPS Coordinates:** 41.7839530715082,-91.7002201080322

**Has Site Guide**

**Ownership:** State

**Description:** Boat ramp into Hawkeye WMA, but the fields on the way in and the trees can be good.

Access and birding very much effected by water levels of the Coraville Reservoir

**Habitat:** Beyond a small wooded area at the turn off from Swan Lake Rd. The habitat is row crop, sheetwater or mudflat depending on the water levels in the reservoir. Either of those can be good for shorebirds or waterfowl. The old oxbow, Babcock Lake, is a narrow channel that sometimes contains interesting birds. The old parking lot at end of the old road has a good view of the flats, E towards Sand Point.

**Directions:** On the upper Coralville Reservoir, Hawkeye W.A., northwest Johnson Co. A few miles north of I-80, take the North Liberty/F-28 exit off I-380. Go west on F-28 about 3.5 miles to Greencastle Ave. Take Greencastle 1.5 miles north to Swan Lake Rd., just after a pond on your right. Turn right (east) on Swan Lake, a B-level road here, 0.8 mile to the Babcock entrance road on your left. Follow this to its end at a small parking area. Where the road turns left to the parking lot and boat ramp, an old road goes NE from this left turn and may be walked sometimes. This can also be accessed from Swan Lake, going W. The road is often in better shape coming from the E.

**Public Hunting Area**

**Amenities:** Parking |

### Ciha Fen Preserve (eBird Hotspot)

**GPS Coordinates:** 41.8301253,-91.3828306

**Ownership:** None listed

**Description:** The 40 acres close to the parking lot is relatively pristine. The North 40 is more modified. From the parking lot, one trail loops North for a bit and then splits. The left branch goes above the fen to the sand prairie. The right branch goes near the fen and another wetland the then turns easterly toward a gate through the E-W fence which bisects the fen. Beyond the gate, the trail bears W across the bottom of the pasture.

**Habitat:** Woods and sand prairie and something which is more or less pasture [tall grass]. Very under birded

**Directions:** Ciha Fen, a recent Johnson County Conservation Board acquisition in the far NE corner of Johnson Co. It is an 80 acre property of botanical and geological interest, containing on of only 2 nutrient poor fens in the state of Iowa. It is underbirded. From Iowa City, take Hgw 1 n, through Solon, continuing ~1.5 mile 145th St. [or come S from Mt Vernon on Hgw 1 for 4.25 mile] Go East for 6.45 mile. The road appears to change names. You will come to and cross the new Sutliff Br. At this point Lisbon Road continue N and White Oak Ave goes S. Take White Oak Ave S, past Sutliff, for a total of 2.37 miles. Go E for a bit less than 1.5 miles. there will be assign, a small parking area and a gate on the N side of the

road. Do not block the gate on weekdays when the JCCB crews may need to get in. This is the SE corner of the property. The Ciha Fen property is divided roughly in half by an E-W fence. There is a gate at the W border to enter the N 40.

**Amenities:** Parking |

### **Coralville Lake (eBird Hotspot) (Important Bird Area)**

**GPS Coordinates:** 41.7842396,-91.5842807

**Has Site Guide**

**Ownership:** Federal - COE

**Description:** The Coralville Lake is a multiuse Flood Control reservoir above the Coralville Dam in North Liberty. Pool size is listed at 5280 acres, but water levels and pool size vary greatly depending on the Corps' plan and the vagaries of Mother Nature. In 1993 and 2008 water was backed up 20+ miles, nearly to the Amanas. About a 1/3 of the way through its length, Lake MacBride flows into the Coralville Lake. Beyond 965 the area of the Coralville Lake becomes Hawkeye WMA and is managed & owned by the DNR.

**Habitat:** Lake and surrounding forest. For much of the its length, the Coralville Lake is narrow,

**Directions:** The dam is located 4 miles N of Iowa City. There are numerous points of access to view the water, or to bird the woods around the reservoir. Directions for most are are below.

**Amenities:**

### **Coralville Lake--Dam (eBird Hotspot)**

**GPS Coordinates:** 41.7245276,-91.5288476

**Has Site Guide**

**Ownership:** Federal - COE

**Description:** This site offers access to several viewing points for looking at the water, as well as access to the tailwater. The beach area provides viewing place for the water, once the summer hordes clear out. Once winter hits, the steep road to the beach is closed. Before this, it offers a roosting point for late gulls. There are roads which leads down to the Tailwater on both the E and E sides of the outflow. The West Tailwater access affords a nice few down stream.

<http://www.mvr.usace.army.mil/Portals/48/docs/Recreation/ODC/AllTrails2013.pdf> leads to a map of the trails.

**Habitat:** Open water and forest. Directly opposite the Headquarters, one can find the Veterans Trail -- a fully accessible trail that loops a short distance through the woods. It leads to a bird blind. One the East side a group of trails lead into the forest. Best is the Woodpecker Trail.

**Directions:** South of North Liberty in Johnson Co. ABOVE THE DAM(beach): Two miles north of I-80 along Dubuque St. (an Iowa City exit), or 2.5 miles south of North Liberty along Dubuque St., look for the Army Corps of Engineers sign to the dam on the east. From there follow the signs for the beach area.

**MORE VIEWING:** At one point you have a choice of heading toward the beach/dam area (right) or the campground (left); the campground also affords viewing of the reservoir.

**Amenities:** Restrooms | Drinking Water | Parking | Trails | Camping | ADA Accessible Trails

**GPS Coordinates:** 41.8215594,-91.5674908

**Ownership:** None listed

**Description:**

**Habitat:**

**Directions:** from the Swisher/Shueyville exit of I380, take CR F12 east about 5 miles until it ends at CR W6E or Ely Rd. Go south on Ely Rd about a mile, then turn right on 140th St. Go west on 140th St .5 miles to a gravel field driveway on the north side of the road. Just NW of the ATV Park there and walk North Northeast about 250 paces to a large oval shaped semi open area surrounded by large willows with dense green ground cover about 12 to 18 inches high and a half inch of standing water.

**Amenities:**

**Coralville Lake--Sandy Beach Public Use Area (eBird Hotspot)**

**GPS Coordinates:** 41.8146981,-91.5930176

**Ownership:** None listed

**Description:**

**Habitat:**

**Directions:** - on the lower Coralville Reservoir north of North Liberty in Johnson Co. Take the Shueyville exit east off I-380. After about a mile turn south on Sandy Beach Rd. in Shueyville and follow this winding road, paying attention to the signs, a little more than four miles to viewing of the reservoir.

**Amenities:**

**Coralville Lake--Scales Pointe (eBird Hotspot)**

**GPS Coordinates:** 41.8039822,-91.5899062

**Has Site Guide**

**Ownership:** None listed

**Description:**

**Habitat:**

**Directions:** access the area from the opposite side of the water (opposite from Sandy Beach) by taking highway 965 north out of North Liberty, turn right at the sign to Scales Point, follow the road toward Scales Point until the road takes a 90-degree turn to the right and there is a small parking lot with a gate. Park there, walk through the woods down to the water's edge and follow the shoreline until you find where the shorebirds are feeding.

**Amenities:**

**Coralville Lake--Squire Point Trail (eBird Hotspot)**

**GPS Coordinates:** 41.7299137,-91.5555096

**Has Site Guide**

**Ownership:** None listed

**Description:**

**Habitat:**

**Directions:** At Lake Macbride, north of North Liberty in Johnson Co. Follow F-28 off I-380 into and through North Liberty. Turn north at Front St. in North Liberty and continue following F-28 about 4.5 miles to Cottage Reserve Rd., just over the causeway. Turn left on Cottage Reserve, and then take the next left and follow this road to Cottage Reserve Woods at its end, at the boat launch. There is a short lane on your right leading to the woods trail.

**Amenities:**

### **Curtis Bridge Rd. and boat ramp**

**GPS Coordinates:** 41.8070851640769,-91.6458249092102

**Ownership:** Multiple

**Description:** This provides access to one of the few late season ice free areas where the reservoir as the reservoir is narrow at this point. Above the entrance road to the marina, there is a steep road, beyond

a gate that leads to an area which was formerly a COE picnic area. There is a small prairie surrounded by oak trees [mostly]. At the top of the hill you are on a high bluff above the reservoir.

**Habitat:** The bulk of the land immediately adjoining the reservoir is managed by the Corps of Engineers. Mid-River Marina is privately managed.

**Directions:** North of North Liberty at the lower Coralville Reservoir in Johnson Co. VIEWING ACROSS FROM MARINA: 0.9 mile S of where Hwy. 965 from where it crosses I-380, take Meadow Rd. to the east. There is a very short distance until Curtis Bridge Rd goes off to your left. [the First Left]. Drive a short distance and park. You walk down to the Lake. In the winter, you can drive almost to the water. This is a working marina so please respect the private property. CURTIS BRIDGE BOAT RAMP: 0.3 south of where Hwy. 965 from crosses I-380, take Curtis Bridge Rd. to the east. Follow the road 3/4 of a mile, including an initial sharp left turn, to its end at the water.

**GPS Coordinates:** 41.7856491,-91.7148972

**Has Site Guide**

**Ownership:** None listed

**Description:**

**Habitat:**

**Directions:** At Coralville Reservoir, Hawkeye W.A., in northwest Johnson Co. A few miles north of I-80, take the North Liberty/F-28 exit off I-380. Go west on F-28 about 3.5 miles to Greencastle Ave. Take Greencastle two miles north, crossing Swan Lake Rd. just after a pond on your right, until you're on the dike. **SHOREBIRDS:** In season there is usually a population or two that can be scoped from the road, to the east. Depending on conditions, you can often leave the road and walk east for a stretch to see more pockets of shorebirds--start just north of the inlet that reaches to the road. Also, with correct water levels on the west side, shorebirds often congregate along the far shore of the bay to your right. You can walk closer to them along the north shoreline, and a little farther west through the grass here is a second inlet with shorebird habitat. In all cases, boots are recommended.

**Amenities:**

#### **Hawkeye WMA--Gunclub Ponds (eBird Hotspot)**

**GPS Coordinates:** 41.7723999,-91.7151117
